

SNS COLLEGE OF TECHNOLOGY

Coimbatore-35
An Autonomous Institution

Accredited by NBA – AICTE and Accredited by NAAC – UGC with 'A++' Grade
Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai

DEPARTMENT OF INFORMATION TECHNOLOGY

OBJECT ORIENTED PROGRAMMING

II YEAR - III SEM

INTRODUCTION TO OOP

Java Comments

- Comments can be used to explain Java code, and to make it more readable.
- It can also be used to prevent execution when testing alternative code.

Java Comments - Single-line Comments

- Single-line comments start with two forward slashes (//).
- Any text between // and the end of the line is ignored by Java (will not be executed).
- This example uses a single-line comment before a line of code:

```
// This is a comment  
System.out.println("Hello World");
```

Java Comments - Multi-line Comments

- Multi-line comments start with `/*` and ends with `*/`.
- Any text between `/*` and `*/` will be ignored by Java.
- This example uses a multi-line comment (a comment block) to explain the code:

```
/* The code below will print the words Hello World  
to the screen, and it is amazing */  
System.out.println("Hello World");
```
