Coimbatore – 35

DEPARTMENT OF MATHEMATICS

PUZZLES

1. How can you get 30 by placing the balls into the boxes in the following equation?

The puzzle shows an equation with three empty circles and the number 30: $\text{○} + \text{○} + \text{○} = 30$. Below the equation are eight numbered balls: 1, 3, 5, 7, 9, 11, 13, and 15.

2. Now, the clock shows 3:35 pm. If the clock is rotated 90 degrees counterclockwise then what will be the time?
